Second International Fascia Research Congress
October 27 – 30, 2009; Amsterdam, Netherlands

Recent basic and applied research and reviews in soft connective tissue sciences at all levels: molecular, cellular, tissue, organ, compartment, and limb or trunk and whole body ... and in all disciplines: molecular biology, cytology, histology, anatomy, physiology, biochemistry, biomechanics, neurology, and surgery, among others. The conference will include free oral and poster presentations of peer-reviewed research; special panels and presentations will also address the research interests of clinical practitioners in acupuncture, chiropractic, massage, neuromuscular therapies, osteopathy, physiatry, physical therapy, sports medicine, structural bodywork, and surgery. Clinical practice techniques will be demonstrated at both podium and small-group sessions aimed at bringing manual therapy clinicians and scientists together to enhance common research interests and communication. There will be an opportunity to attend several post-congress workshops on Saturday, October 31, 2009, at Vrije Universiteit, Amsterdam. These workshops will provide a forum for clinical practitioners to present their methodologies and research questions so as to cross-educate other clinicians and stimulate new areas of inquiry by research scientists. The 2009 Fascia Congress is co-sponsored by the Massage Therapy Foundation. The International Journal of Therapeutic Massage and Bodywork (IJTMB) is serving as one of two post-congress publishing venues for selected presentations.

Registration is open online. For full event details, including the program schedule and list of key speakers (with biographies and abstracts of their recently published works), please visit http://www.fasciacongress.org/2009.
